REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Regarding Claims 1 and 24, the invention as claimed, specifically in combination with the photoconversion device as a pinned photodiode having a pinning voltage and a gate, wherein at least a portion of the gate is located directly over the photoconversion device for changing the pinning voltage, is not disclosed or made obvious by the prior art of record.

Regarding Claims 2, 20, 47, and 49, the invention as claimed, specifically in combination with the pixel sensor cell arranged such that the photoconversion device has a reduced pinning voltage V_{PIN} when a negative bias is applied to the gate/contact, is not disclosed or made obvious by the prior art of record.

Regarding Claim 8, the invention as claimed, specifically in combination with the photoconversion device having a pinning voltage, a dielectric substance layer formed above the first surface level of the substrate forming a second surface level, a polysilicon layer formed over the second surface level, and a contact connected to the polysilicon layer for using a voltage to change the pinning voltage, is not disclosed or made obvious by the prior art of record.

Regarding Claim 28, the invention as claimed, specifically in combination with the photoconversion device having a pinning voltage, with a gate for changing the pinning voltage including a dielectric and a polysilicon layer, is not disclosed or made obvious over the prior art of record.

Regarding Claim 30, the invention as claimed, specifically in combination with the photoconversion device having a pinning voltage, a gate including a dielectric layer over the first surface level of the substrate and a polysilicon layer over the dielectric layer, a contact connected

to the gate, wherein the gate is operable to reduce an energy barrier between the photoconversion device and the charge collection region, is not disclosed or made obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
